A Cut in the Market

A cut in price affecting all the states in what is known technically as the Standard of Indiana territory was announced yesterday, but just how the price will stand after the situation is thoroughly understood is not known here, but it is thought to be a readjustment oil round.

For instance, in Chicago, where quantities of gasoline could be purchased at 29 1/2 cents, the price is now 21 cents, with filling stations asking 25 cents. This is a large range and large users in differentials of two cents per gallon.

It amounts, however, to a cut of two cents a gallon, as big refiners or cash-and-carry manufacturers have accepted the 29 1/2 cent price as being official. This is especially true with the refiners, while cash-and-carry people have been told to stand by their original price, but they could get a large share of their stuff goes to the Standard districts, and is held for blending purposes.

There is an advance in Chicago and suburbs of one cent per gallon on kerosene, and this is not enough because it means that kerosene will cost 29 1/2 cents per gallon if bought from the market, and the difference between kerosene and gasoline is obviously much less when it comes to real value than between 24 and 21 cents per gallon.

The kerosene market is strong for the reason that it is used for motor fuel in tractors and heavy engines and there is a strong demand among farmers, water, and in many places, depending on navigation where the supply must come now or not at all, and most of all because refiners are making but little kerosene in these days of cracking processes, and only refiners using the old-fashioned methods are making any.

Outside of Chicago and its suburbs reports differ as to what the tank wagon market will be henceforth. One report has it, and it was so given in yesterday's afternoon's World, that the new price outside of Chicago will be one cent off, and although some of the larger refiners are doing well, others do not seem to have had the correct dope. As far as the price in Kansas City, technically known as the tank wagon price, is now 21 1/2 or a reduction of .9 cents per gallon.

The Prairie Oil & Gas Co. No. 1, Birches in the northwest corner of 11-13-8 is underdraining about 4,200 feet.

At Padon

The Padon oil company No. 1, Thomas in the northeast of northwest of 17-12-17 got sand 2,100 feet and well is reported good for 200 barrels.

At Chandler

The Chandler oil company No. 1, Birches in the northwest corner of 11-13-8 is shut down at 4,200 feet.

At Davenport

Jennings and others No. 1, El Dorado in the southwest of northwest of 14-15-12 is dry and about 4,200 feet.

At Glenn Pool

The Ohio Cities Gas company No. 5 in the southwest of northwest of northwest of 17-17-17 is dry and abandoned at 4,500 feet.

At Okmulgee

E. B. Black No. 1, Bradford in the southwest of northwest of southwest of 19-14-14 is dry and abandoned at 2,700 feet.

The Allentown oil company No. 2, Anderson in the northeast of 14-14-15 got sand 1,150 to 1,180 feet and well is good for 50 barrels after a shot.

The Barkley oil company No. 1, Jones in the southeast of northwest of 17-14-15 got sand 1,150 to 1,180 feet and well is good for 40 barrels after a shot.

The Sinclair Oil & Gas Co. No. 1, Birches in the northwest corner of 11-13-8 is dry and about 4,200 feet.

At Tulsa

The Oklahoma oil company No. 1, Birches in the northwest corner of 11-13-8 is underdraining about 4,200 feet.

At Bixby

Winemiller No. 1, Birches in the southwest corner of 14-14-13 got sand 1,100 to 1,120 feet and well is making 4,000 feet of gas.

At Beggs

The Penn Refining and Refining Corporation No. 1, Hawkins in the northeast of 14-14-13 got sand 1,170 to 1,180 feet and well is good for 6,000,000 feet of gas.

The Tulsa Cities Gas company No. 2, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Cushing Oil & Gas Co. No. 1, Birches in the southwest of northwest of 14-14-15 is dry and about 4,200 feet.

At Sapulpa

The Phillips Petroleum Company No. 1, Birches in the southwest of northwest of 14-14-15 is dry and about 4,200 feet.

The Phillips Petroleum Company No. 2, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 3, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 4, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 5, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 6, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 7, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 8, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 9, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 10, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 11, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 12, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 13, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 14, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 15, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 16, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 17, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 18, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 19, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 20, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 21, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 22, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 23, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 24, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 25, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 26, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 27, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 28, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 29, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 30, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 31, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 32, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 33, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 34, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 35, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 36, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 37, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 38, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 39, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 40, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 41, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 42, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 43, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 44, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 45, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 46, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 47, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 48, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 49, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 50, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 51, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 52, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 53, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 54, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 55, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 56, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 57, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 58, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 59, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 60, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 61, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 62, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 63, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 64, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 65, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 66, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 67, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 68, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 69, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 70, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.

The Phillips Petroleum Company No. 71, Madsen in the center of east line of northeast of 12-14-12 is dry and abandoned at 2,500 feet.
